

Ready-Mix Concrete

Strengths available:

- 10N
- 20N
- 25N
- 30N
- 35N
- 40N
- 45N
- 50N

All strengths are available in 10mm or 20mm chip

Specific pump-mix designs and fibre re-enforced concrete are available.

Concrete Strength	Usage	Mix Designation	Minimum Strength
35N	Foundations, floors, yards, slurry tanks, general reinforced concrete	C25/35	300 kg/m ³
40N	Silage pits, effluent tanks containing silage, milking parlour floors, areas subject to severe abrasion	C32/40	350 kg/m ³

All our concrete mixes contain **GGBS** which enables us to reduce out carbon footprint.
